***Examiner's Statement of Reasons for Allowance***

1. Claims 1-14 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claims 1, and 9:

The present invention is directed to a system for stabilizing at least two antennas on a mobile platform, the antennas including a first antenna associated with a first geo-stationary satellite and a second antenna associated with a second geo-stationary satellite.

Regarding claims 1, and 9, Prior arts fail to explicitly teach that the antenna system with the upper alignment system being configured for pointing the antennas relative to said intermediate element, such that the angular displacement between the first antenna and second antenna is substantially matched with the angular displacement between the first geo-stationary satellite and the second geo-stationary satellite.

Claims 2-8 are allowed for depending on claim 1.

Claims 10-14 are allowed for depending on claim 9.

Art Unit: 2821

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
